 - **Academic Affairs:** What programs (ie: Fast Start, LEAP, etc.) are currently in place for incoming first year students, which are deemed (with data) to be most impactful, and should we automatically enroll “at risk” students into those programs to foster their early success? How do we expand these opportunities to more students? What is available to prospective PSU students in the local community K-12 schools?
 - **Student Life:** How are we leveraging technology to centralize resources and data to connect employers with students for internship opportunities and permanent employment across the Penn State system (all campuses)? What plans are underway to improve those relationships with industry?
