Position Statement

The Pennsylvania State University has been a rich tradition in my family with countless generations attending the institution. My dedication, enthusiasm and passion to the University gives me the drive to represent the alumni with a strong voice.

Having the opportunity to be on the Board, would present the chance for me to give back to the University and serve in the best interest of alumni. With my fiscal and community service experience, I feel I would be a strong asset. As a member on the Board of Trustees I will be committed to these goals:

1. Strengthening the communication between the University, faculty, students, and all alumni. Younger alumni lose connection quickly to the University after graduation. We need to give them the opportunity to engage in discussions and events to create a stronger bond and a stronger Penn State name. No alumni will be left behind. I feel my fairly recent graduation would allow me to easily relate to the younger alumni generations.

2. I believe that our University has the brightest talent the world has to offer. It would only make sense to harness that knowledge to better Penn State. I would encourage both academic and intellectual growth among students, and financial growth within the University making sure all campuses are part of that overall goal.

My loyalty to Penn State will never waiver as I am devoted to representing you. I ask for your support to be a voice for all alumni.
